### MESSAGE FROM CMD

In my speech on the Republic Day, I had mentioned about the Corporate Horticulture Policy adopted by our Corporation, which was an initiative by our HR & Administration Department. I had emphasized on its implementation in letter and spirit. As a follow up, I have already written to all our Chief Engineers to draw up an action plan to go for plantation through a campaign "GREEN PSTCL". I thought it proper to appeal all our employees through this communiqué to make the campaign successful.

We have huge vacant space in our grid substations which can be utilized to develop green belt in accordance with the Policy without compromising our operational requirement. All of you know, the climate change has been a matter of great concern for the entire mankind which needs to be combated. Our initiative when implemented will not only beautify our substations but will also help in absorbing carbon dioxide which are caused by many factors and contribute to the climate change. Successful implementation of the Policy depends on our will and commitment which we together as a Team will accomplish. We should proceed with a target to complete the plantation in all our Grid Substations before the ensuing monsoon.

You will be glad to know that in one year one acre of mature trees can provide enough oxygen for 18 people. Let us work as a team and demonstrate our responsibility to the society as a responsible corporate citizen

U.K. Panda

**Hon'ble CMD, PSTCL, Sh.U.K.Panda along with Chief Engineer/P&M and other Officers visited G-1, G-2 and G-4 Grid Substations in Mandi Gobindgarh on 17.12.2015**

Hon'ble CMD, PSTCL with all Officers and staff of G-4 Grid Substations

#### Retired on 31<sup>st</sup> Dec, 2015

- Er. P.K. Bansal- Addl.SE
- Er. Manjit Singh - AEE
- Er. Surinderpal Singh- AEE
- Er. Sukhbir Singh - AE

## Wounds in Friendship

Once upon a time there was a spoilt boy. His father gave him a bag of nails and order to hammer one in a fence surrounding garden every time when he'd loose patience and quarrel with someone. On the first day the boy hammered 37 nails in a fence. In next week he learned to control himself and the number of hammered nails was less and less from day to day. Then the day when he didn't hammer a single nail had done. He came to his father and said that he hadn't hammered any nails. So his father told him to get one nail out of the fence every time when he wouldn't loose patience and quarrel with anyone.

The days were passing and in the end the boy could tell his father he had got out every single nail from a fence. Then father took a boy to a fence and said: "Son, you did well but look how many holes are in a fence. The fence will never be the same as before. When you quarrel with someone and you tell him bad things you leave a wound inside him like those holes in a fence. You can plunge a knife and then get out but the wound stays. No matter how many times you are sorry for that the wound stays. Word wound hurts the same as psychical. Friends are like rare jewels, they makes you smile and feel comfortable. They are ready to listen to you when you need it, they support you and open their hearts to you."
