

NEWSLETTER

Message from Director/Technical

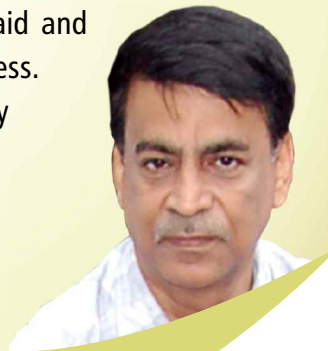

It gives me immense pleasure to pen down few words on the occasion of release of the 15th issue of Newsletter of PSTCL. PSTCL has been managing all the Grid Sub-Stations & Transmission Line very effectively and this only due to the initiative and hard work of our Officers and Staff who ensure proper maintenance of the Sub-Stations & Transmission Lines for higher transmission availability. The scheme introduced by the Corporation to award the Best managed Grid Sub-Station, Best managed Transmission Line and best Green Sub-Station every year on the occasion of the Republic day Celebrations has motivated our officers to put in their best in spite of constraints.

PSTCL is taking up two major projects that are 400KV Sub-Stations Dhanansu in Ludhiana and 400 KV Malkana in Bathinda. Also the 1671 km Optical Fiber Cable in transmission lines has already been laid and laying of 467 km Optical Fiber Cable is in progress.

With a sustained effort we, as a team, will surely make all the Grid Sub-Stations and the Transmission Lines, as better managed ones and continue to serve the people of the State by making available un-interrupted and quality power.

I wish all the employees a very good health and prosperous life.

Er. Ajay Kumar Kapur

Four batches of 20 participants each were sent for 4 weeks Training Program of SSAs at Technical Training Institute (TTI), PSPCL, Patiala from February, 2018 to June, 2018.
