| Sr.No. | Clarification required | Clarification |
|---------------|---|--|
| 1. | New firm may be given orders up to 30% | Orders up to 30% can be given to new firms to develop new sources of supply and encourage competition. |
| 2. | If a firm has been manufacturing similar items and has proven experience, it may not be considered as a new firm. | The definition of new firm is modified only for distribution of quantities. Any firm that has supplied similar material to other State Utilities would be treated as old firm for distribution of quantities but if that firm is new to PSEB, work appraisal shall be done. If a firm fails in the work appraisal that firm should not be considered during the course of technical evaluation and price bid of the firm should not be opened. |
| 3. | No firm should be refused tender documents. | |
| 4. | Pre qualification and Technical qualification should be clubbed together for the purpose of Technical evaluation. | 3 & 4 Clause-10 (iv) and (x) should be considered during the technical evaluation and if a firm does not conform to these clauses it should be technically disqualified. |
