| Furniture and fittings    | 2,200    | Purchases less returns    | 1,08,000 |
| Sales                     | 1,50,000 | Sales returns             | 2,000    |
| Discount allowed          | 1,600    | Commission received       | 1,800    |
| Interest on bank deposits | 200      | Rates and taxes           | 920      |
| Insurance premium         | 1,080    | Rent received from tenant | 1,400    |
| General expenses          | 4,000    | Wages                     | 4,200    |
| Salaries                  | 7,800    | Carriage inwards          | 1,800    |

|                       |     |              |       |
|-----------------------|-----|--------------|-------|
| Carriage outwards     | 470 | Cash in hand | 1,530 |
| Bad debts written off | 800 |              |       |

(Marks: 6)

- (c) A company bought machinery for Rs. 4,00,000, including a shaft worth Rs. 40,000. The machinery is subject to depreciation at 10% by reducing instalment method. In the beginning of the fifth year, the shaft became obsolete and was sold for Rs. 8,000. Write up the machinery account for five years.

(Marks: 8)

- Q. 2 (a) When an asset shall be classified as a Current asset as per Ind AS 1? Also explain Operating Cycle. (Marks: 5)

- (b) Alpha Ltd on 1<sup>st</sup> April 2021 borrowed 9% 30,00,000 to finance the construction of two qualifying assets. Construction started on 1<sup>st</sup> April 2021. The loan facility was availed on 1<sup>st</sup> April 2021 and was utilized as follows with remaining funds invested temporarily at 7%.

|                              | Factory Building | Office Building |
|------------------------------|------------------|-----------------|
| 1 <sup>st</sup> April 2021   | 5,00,000         | 10,00,000       |
| 1 <sup>st</sup> October 2021 | 5,00,000         | 10,00,000       |

Calculate the cost of the asset and the borrowing cost to be capitalized.

(Marks: 5)

- (c) Entity ABC acquired a building for its administrative purposes and presented the same as property, plant and equipment(PPE) in the financial year 2021-22. During the financial year 2022-23, it relocated the office to a new building and leased the said building to a third party. Following the change in the usage of the building, Entity ABC reclassified it from PPE to investment property in the financial year 2022-23. Should Entity ABC account for the change as a change in accounting policy?

(Marks: 5)

- (d) X Ltd. has a treasury department that arranges funds for all the requirements of the Company including funds for working capital and expansion programs. During the year ended March 31, 2020, the Company commenced the construction of a qualifying asset and incurred the following expenses:

| Date             | Amount(Rs.) |
|------------------|-------------|
| 1 July, 2019     | 2,50,000    |
| 1 December, 2019 | 3,00,000    |

The details of borrowings and interest thereon are as under:

| Particulars          | Average Balance (Rs.) | Interest(Rs.)   |
|----------------------|-----------------------|-----------------|
| Long term loan @ 10% | 10,00,000             | 1,00,000        |
| Working Capital Loan | 5,00,000              | 65,000          |
| <b>Total</b>         | <b>15,00,000</b>      | <b>1,65,000</b> |

Compute the borrowing costs that should be capitalized as per Ind AS 23.

(Marks: 5)

(Total 6+6+8=20)

**Ans.2(a)**

**Current Asset** – “ An entity shall classify an asset as current when:

- (a) It expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
  - (b) It holds the asset primarily for the purpose of trading;
  - (c) It expects to realise the asset within twelve months after the reporting period;
  - (d) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- An entity shall classify all other assets as non-current.”

**Operating Cycle** – “ The operating cycle of an entity is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. When the entity’s normal operating cycle is not clearly identifiable, it is assumed to be twelve months.”

(Marks 5)

**Ans.2(b)**

| <b>Particulars</b>      | <b>Factory Building</b>                  | <b>Office Building</b>                        |
|-------------------------|--|---|
| Borrowing Costs         | $(10,00,000 \times 9\%) = 90,000$        | $(20,00,000 \times 9\%) = 1,80,000$           |
| Less: Investment Income | $5,00,000 \times 7 \times 6/12 = 17,500$ | $(10,00,000 \times 7\% \times 6/12) = 35,000$ |

(Marks 5)

**Ans.2(c)**

Paragraph 16(a) of Ind AS 8 provides that the application of an accounting policy for transactions, other events or conditions that differ in substance from those previously occurring are not changes in accounting policies.

As per Ind AS 16, ‘property, plant and equipment’ are tangible items that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and are expected to be used during more than one period.”

As per Ind AS 40, ‘investment property’ is property (land or a building – or part of a building – or both) held (by the owner or by the lessee as a right-of-use asset) to earn rentals or for capital appreciation or both, rather than for : use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of business.”

As per the above definitions, whether a building is an item of property, plant and equipment (PPE) or an investment property for an entity depends on the purpose for which it is held by the entity. It is thus possible that due to a change in the purpose for which it is held, a building that was previously classified as an item of property, plant and equipment may warrant reclassification as an investment property, or vice versa. Whether a building is in the nature of PPE or investment property is determined by applying the definitions of these terms from the perspective of that entity. Thus, the classification of a building as an item of property, plant and equipment or as an investment property is not a matter of an accounting policy choice. Accordingly, a change in classification of a building from property, plant and equipment to investment property due to change in the purpose for which it is held by the entity is not a change in an accounting policy.

(Marks 5)

**Ans.2(d)** The Standard provides guidance for capitalization of borrowing costs of the funds generally borrowed in paragraph 14 which states as follows: "14.1 To the extent that an entity borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the entity shall determine the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to all borrowings of the entity that are outstanding during the period. However, an entity shall exclude from this calculation borrowing costs applicable to borrowings made specifically for the purpose of obtaining a qualifying asset until substantially all the activities necessary to prepare that asset for its intended use or sale are complete. The amount of borrowing costs that an entity capitalizes during a period shall not exceed the amount of borrowing costs it incurred during that period." Therefore, based on the above guidance the interest to be capitalized is computed as follows:  
Computation of Capitalisation rate:

$$\frac{(\text{Amount of borrowing}_1 \times \text{Interest rate}_1) + (\text{Amount of borrowing}_2 \times \text{Interest rate}_2) * 100}{\text{Total amount of borrowings outstanding during the year}}$$
$$= \frac{(1,00,000) + (65,000)}{15,00,000} = 11\%$$

Interest will be capitalized as under:-

On Rs. 2,50,000 @ 11% p.a. for 9 months = Rs. 20,625

On Rs. 3,00,000 @ 11% p.a. for 4 months = Rs. 11,000

Ans. 4(a)

**Bank Reconciliation statement as on September 30, 2014**

|     | <b>Particulars</b>                              | <b>(+) Amount Rs.</b> | <b>(-) Amount Rs</b> |
|-----|---|-----------------------|----------------------|
| 1.  | Debit balance as per cash book                  | 10,000                |                      |
| 2.  | Error in carrying forward                       | 3,000                 |                      |
| 3.  | Cheque recorded twice in cash book              | 300                   |                      |
| 4.  | Cheque deposit not record in bank column        | 200                   |                      |
| 5.  | Cheque deposit but not recorded                 | 1,000                 |                      |
| 6.  | Under casting of payment side                   |                       | 100                  |
| 7.  | Cheque issued but not entered                   |                       | 250                  |
| 8.  | A cash discount wrongly recorded in bank column |                       | 121                  |
| 9.  | Cheque recorded but not deposited               |                       | 500                  |
| 10. | Credit balance as per passbook                  |                       | 13,529               |
|     |   | <b>14,500</b>         | <b>14,500</b>        |

(Marks 10)

**Ans. 4(b)** There are three types of modified opinions in the Independent Auditor's Report, namely-

1. A qualified opinion
2. An adverse opinion
3. A disclaimer of opinion

Qualified Opinion

The auditor shall express a qualified opinion when:

(a) The auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are material, but not pervasive, to the financial statements; or

(b) The auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, but the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive.

Adverse Opinion

The auditor shall express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.

Disclaimer of Opinion

The auditor shall disclaim an opinion when the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive.

The auditor shall disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements.

**Ans. 5(a)** The following points merit consideration in regard to scope of audit:

1. The audit should be organized to cover adequately all aspects of the enterprise relevant to the financial statements being audited.
2. To form an opinion on the financial statements, the auditor should be reasonably satisfied as to whether the information contained in the underlying accounting records and other source data is reliable and sufficient as the basis for the preparation of the financial statements.
3. In forming his opinion, the auditor should also decide whether the relevant information is properly disclosed in the financial statements subject to statutory requirements, where applicable.
4. The auditor assesses the reliability and sufficiency of the information contained in the underlying accounting records and other source data by:
  - (a) making a study and evaluation of accounting systems and internal controls and
  - (b) carrying out such other tests, enquiries and other verification procedures of accounting transactions and account balances as he considers appropriate in the particular circumstances.
5. The auditor determines whether the relevant information is properly disclosed in the financial statements by:
  - (a) comparing the financial statements with the underlying accounting records and other source data to see whether they properly summarize the transactions and events recorded therein; and
  - (b) considering the judgments that management has made in preparing the financial statements accordingly, the auditor assesses the selection and consistent application of accounting policies, the manner in which the information has been classified, and the adequacy of disclosure.
6. The auditor is not expected to perform duties which fall outside the scope of his competence. For example, the professional skill required of an auditor does not include that of a technical expert for determining physical condition of certain assets.
7. Constraints on the scope of the audit of financial statements that impair the auditor's ability to express an unqualified opinion on such financial statement should be set out in his report, and a qualified opinion or disclaimer of opinion should be expressed as appropriate.

(Marks 5)

**Ans. 5(b)**

Meaning of Internal Control

As per SA-315, "Identifying and Assessing the Risk of Material Misstatement Through Understanding the Entity and its Environment", the internal control may be defined as "the process designed, implemented and maintained by those charged with governance, management and other personnel to provide reasonable assurance about the achievement of an entity's objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, safeguarding of assets, and compliance with applicable laws and regulations. The term "controls" refers to any aspects of one or more of the components of internal control."

Objectives of Internal Control

- (i) transactions are executed in accordance with managements general or specific authorization;
- (ii) all transactions are promptly recorded in the correct amount in the appropriate accounts and in the accounting period in which executed so as to permit preparation of financial

- information within a framework of recognized accounting policies and practices and relevant statutory requirements, if any, and to maintain accountability for assets;
- (iii) assets are safeguarded from unauthorised access, use or disposition; and
  - (iv) the recorded assets are compared with the existing assets at reasonable intervals and appropriate action is taken with regard to any differences.
- (Marks 10)

**Ans. 5(e)**

Distinction between Verification and Vouching

Vouching and verification are considered to be one and the same thing. But it is not so. The statement, i.e.

"Vouching proves the accuracy of book entries but the worth of the Balance Sheet can be certified only on verification of assets and liabilities shown therein." is a correct statement. This means that a clear line of demarcation can be drawn between the two. While vouching is to examine the correctness and authenticity of the transactions recorded in books of prime entry, verification is to confirm the value of assets and liabilities as shown in the balance sheet. As such, in verification it is not merely the duty of the auditor to see that assets have been acquired but he has to certify that such assets:

- (i) exist with the business,
- (ii) are the property of the client, and
- (iii) are valued at proper figures on a particular date, namely the date of balance sheet.

Following points distinguish the two

1. **Nature of work.** Vouching examines the entries relating to transactions recorded in the account books while verification examines the assets and liabilities appearing in the balance sheet.
2. **Time.** Vouching is done throughout the year while verification is done at the end of the year when the balance sheet is prepared.
3. **Basis.** Vouching is based only on documentary examination while verification is based on personal as well as documentary examination.
4. **Valuation.** Vouching does not include valuation while verification includes valuation.
