### MESSAGE FROM CMD

It has been a great pleasure to see that almost all the Grid sub-stations of the Corporation have been maintained very efficiently by the Officers and the staff of the Sub-stations. So also the initiative by our officers and staff to ensure proper maintenance of the transmission lines for a higher transmission availability. The Scheme introduced by the Corporation to award the best managed grid sub-stations and best managed transmission lines every year on the occasion of the Republic Day celebrations have really motivated our Officers to put in their best in spite of constraints.

This issue of the Newsletter with additional pages carries memorable photographs of the recipients of best managed grid sub-stations and transmission lines for the year 2015. Congratulations once again to all the Officers and staff of the Grid sub-stations and Transmission lines who have been making tremendous effort to come out as best. With a sustained effort we, as a team, will surely make all the grid substations and the transmission lines as better managed ones and continue to serve the people of the State by making available un-interrupted and quality power.

The "Green PSTCL" initiative to go for plantation in all the grid substations before the coming monsoon will enhance the beauty of all the sub-stations and help achieving the objective of the Horticulture Policy adopted by the Corporation.

**U.K. Panda**

- ♦ Er. Rajinder Singh, AE

## International Women's Day

**International Women's Day (IWD)**, originally called **International Working Women's Day**, is celebrated on March 8th every year

UN's 2016 theme for International Women's Day is

**"Planet 50-50 by 2030: Step It Up for Gender Equality"**.

The idea of this theme is to consider how to accelerate the 2030 Agenda, building momentum for the effective implementation of the new Sustainable Development Goals,

Achieve gender equality and empower all women and girls; Ensure inclusive and quality education for all and promote lifelong learning. The theme will also focus on new commitments under UN Women's Step It Up initiative, and other existing commitments on gender equality, women's empowerment and women's human rights.

Some key targets of the 2030 Agenda:

- ♦ By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and Goal-4 effective learning outcomes.
- ♦ By 2030, ensure that all girls and boys have access to quality early childhood development, care and preprimary education so that they are ready for primary education.
- ♦ End all forms of discrimination against all women and girls everywhere.
- ♦ Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation.
- ♦ Eliminate all harmful practices, such as child, early and forced marriage and female genital mutilation.

*Let's contribute our bit to achieve gender equality.*
