### Message from Director /Technical

It gives me immense pleasure to share my views on the occasion of the release of this half-yearly issue of the Newsletter of PSTCL. The responsibility to provide reliable and quality power supply to the people of Punjab lies on our shoulders and we all are putting continuous efforts to provide uninterrupted power supply. Today the existence of our homes, commercial establishments, industries etc. are fully dependent on power. PSTCL has 171 sub-stations, out of which 5 nos. are 400 KV, 96 nos. are 220 KV and 70 nos. are 132 KV sub-stations and PSTCL is looking after the protection and maintenance of all these sub-stations. Besides this, the maintenance of 34,000 MVA transformer capacity and 12,330 KMs Transmission Lines is being done by PSTCL to provide smooth power supply at every nook and corner of the Punjab state.

Our employees in this field are vigilant to provide uninterrupted transmission and quality power during the paddy season and working hard to meet the Load Demand during this season, which reached highest ever on 10.07.17 at 11681 MW. Till date we are able to provide uninterrupted supply due to hard work of employees of PSTCL and I take the opportunity to congratulate all the employees and their family members for their efforts and co-operation. Let us take a pledge to put sincere efforts in making PSTCL, one of India's Best Transmission Organisation which will only be possible if we work hard as a team in a strategic and planned manner with utmost devotion.

**Er. Shashi Prabha**

Director / Technical

**Training Programme conducted by CPRI on Third Party Protection Audit from 27<sup>th</sup> to 28<sup>th</sup> Feb, 2017 at the office of Chief Engineer / P&M office PSTCL, Ludhiana**
