

Sr.No. 9(a)

* Syllabus for Draftsman Autocad/Electrical

1. Basic Workflow

- **Navigating the Interface**
 - Environment Comparisons
 - About the Quick Access Toolbar
 - About the Ribbon
 - Changing Ribbon Settings and Display Options
 - Using the Application Menu
 - Searching for Information Using InfoCenter
- **Basic Workflow**
 - Basic Circuit Workflow

2. Project Basics

- **Project Manager**
 - About Project Files
 - About the Project Manager
 - Creating New Projects
- **Project Drawing List**
 - About the Drawing List
 - Creating New Drawings
 - Editing the Project Drawing List
 - About Drawing Descriptions and Sections
 - Adding Drawing Descriptions and Sections
 - Changing the Drawing List Display
 - Project Batch Plotting
- **Moving Through Projects**
 - Selecting Drawings Using the Project Manager
 - About Opening the Previous or Next Project Drawing
 - Searching Project Drawings Using the Surfer Tool
- **Managing Projects**
 - Opening Projects
 - Activating and Closing Projects
 - Copying Projects

3: Schematic Wiring

- **Wires and Ladders**
 - About Wires
 - Inserting Wires
 - Layer Assignments
 - Trimming Wires
 - About Ladders and Rungs
 - Referencing
 - Inserting Ladders and Rungs
 - Revising Ladders
 - Point-to-Point Wiring
 - Point-to-Point Style Drawings

20/11

Handwritten signatures and initials.

- Point-to-Point Wiring Tools
- Using Point-to-Point Wiring Tools
- **Wire Numbers and Leaders**
 - About Wire Numbers and Leaders
 - Setting Wire Number and Leader Defaults
 - Automatically Adding Wire Numbers and Leaders
 - Manually Adding and Editing Wire Copies and Leaders
- **Source and Destination Signals**
 - About Source and Destination Signals
 - Adding Source and Destination Signals

4. Schematic Components

- **Inserting Schematic Symbols**
 - Schematic Symbol Insertion Process
 - About the Insert/Edit Component Dialog Box
 - Selecting Existing Catalog Part Numbers
 - Creating Parent-Child Relationships
- **Inserting Schematic Components from Lists**
 - About Equipment, Panel, and Catalog Lists
 - Inserting Components from Lists
- **Connectors**
 - Inserting Connectors
 - Editing Connectors
- **Terminals, Multiple Level Terminals and Jumpers**
 - About Terminals and Jumpers
 - About Multiple Level Terminals
 - Inserting Terminals, Multiple Level Terminals, and Jumpers
- **Circuits**
 - About Circuits
 - Moving and Copying Circuits
 - Inserting Wblocked Circuits
 - Saving Circuits to an Icon Menu
 - Inserting Saved Circuits
- **Multiple Phase Circuits**
 - Adding Multiple-Phase Wires
 - Adding Three-Phase Components

5. Schematic Editing

- **Basic Utilities**
 - Changing Component Locations with Scoot
 - Changing Component Locations with Move Component
 - Aligning Components Vertically and Horizontally
 - Copying Components
 - Deleting Components
 - Toggling Between Normally Open and Normally Closed Contacts
- **Copy Catalog and Location Tools**
 - Copying Catalog Assignments
 - Copying Installation/Location Values
- **Swapping and Updating Blocks**
 - About Swapping and Updating Blocks

Feb
2011

20

ke

12

- Swapping Blocks
- Updating Blocks
- Mapping Attributes
- **Using the Auditing Tools**
 - Using Electrical Audit
 - Using Drawing Audit
- **Update and Retag Drawings**
 - Updating and Retagging Drawings
 - Changing Drawing Sequence

6. Schematic Reports

- **Schematic Reports**
 - About Reports
 - Creating Schematic Reports
 - Using the Report Generator
 - Changing Report Formats
 - Placing Reports in Drawings
 - Saving Reports to Files

7. Panel Layouts

- **Creating Panel Layouts**
 - Inserting Panel Footprints from a Schematic List
 - Assigning Footprint Blocks
 - Inserting Panel Footprints Using the Panel Icon Menu
 - About Nameplates
- **Using the DIN Rail Tool**
 - About DIN Rails
 - Inserting DIN Rails
- **Using the Terminal Strip Editor**
- **Panel Layout Annotation and Reports**

Course Description (AutoCAD)

- ① Introduction to CAD Industry
- ② Drawing Settings
- ③ Orthographic Drawings
- ④ Isometric Drawings
- ⑤ Perspective Drawings
- ⑥ Editing the drawings
- ⑦ Annotations and Dimensions
- ⑧ Layer management
- ⑨ Project Planning and Management: An Overview
- ⑩ Selection Methods
- ⑪ Creating and Updating Repeated Elements
- ⑫ Parametric Drawings
- ⑬ Preparing Joinery Details /BOM
- ⑭ Presenting the Project
- ⑮ Working with a team
- ⑯ Layout Management
- ⑰ Scale setting and Plotting
- ⑱ Import and Export
